- ❖ NFT Marketplace.

## DELEGATING WITH

Delegating is the process of contributing one's digital asset to public validator, to help conduct PoS validation and earn rewards. Delegating is a critical part of participating in many proof of stake protocols. Out of necessity or desire, delegators can participate in the network and earn reward all without having to operate a validators. We delegate 30% from our marketing wallet to a validator node and in exchange for locking the value of our asset to the node, earn percentage of total block reward earned by that validator. This system is to ensure the continuity of the economic level of **\$MYSHIB** can last a long time and create various investment opportunities for our investors in the future.
